- Bachelor of Technology(ECE) from **Bharat Institute of Engineering and Technology** in Hyderabad with of **7.34** CGPA, 2022.
- Intermediate (MPC) from **Sri Gayatri Junior College** in Hyderabad with **95.5%**, 2018.
- CBSE from **Bharatiya Vidhya Bhavans Kamala Rani Sanghi Public School** in Hyderabad with **9.8** CGPA, 2016.

Work Experience :

- **Capgemini, Hyderabad**
Nov 03,2022 – April 28,2023
Analyst
 - During this period, I pursued a comprehensive self-directed learning journey focused on core java, html, css .
 - Demonstrated a commitment to continuous learning and professional development by successfully completing courses through regular assessments and examinations.
 - Collaborated with peers to solve complex problems and participated actively in teamwork.
 - Demonstrated a strong work ethic, adaptability, and a willingness to learn in a dynamic work environment.

While my professional experience may not include workplace projects, my coursework and independent learning have equipped me with a solid theoretical foundation. I am confident in my ability to apply these skills effectively in a professional setting and contribute to the success of a team. This experience enhanced my ability to work effectively in a team-oriented environment.

Technical Skills:

1. **Languages** : Core Java
2. **Database** : MYSQL
3. **Connectivity**: JDBC
4. **Architecture** : MVC
5. **UI** : HTML,CSS,BS
6. **Frame Works** : Spring Boot

Projects:

- **UI project(Website): Ecommerce-Website**
Source : [<https://github.com/akhilapalem/Ecommerce-Website>]
 - Developed E-Commerce website where users can go through different products, offers and contact info.
 - Designed page using Html, Css structure elements to shoe different sections in the website.
- **Mini Project** : Factory automation and irrigation control using an IoT.
Description: The main aim of the project is to process real-time data acquisition under irrigation automation; hence it is essential to monitor and control irrigation parameters like water, moisture, humidity, temperature according to plant requirement.
- **Major Project** : GPS and GSM based vehicle black box system.
Description: The purpose of the project is to find the accident location using GPS module and to send this location by means of sending a message using GSM module to the pre-coded number. This system is usually placed inside the vehicle. It reduces the time it takes for emergency rescue to arrive at the crash location.

Strengths:

- Confident and Determined
- Time management
- Team work
- Perfect planning for any given work.

Declaration:

I hereby declare that the above written particulars are true to the best of my knowledge and nothing has been concealed or distorted.
